

MT SWIB

STATE WORKFORCE INNOVATION BOARD

AGENDA ACTION REPORT

MEETING October 26th, 2016 WIOA Committee

ITEM One-Stop Infrastructure Funding

ACTION REQUESTED None

PRESENTED BY Shannon Lewis, SWIB Program Manager

INFORMATION §678.700 outlines the infrastructure costs of one-stop centers for the operation of the center. Under WIOA, all of the required one-stop partners that carry out activities within the one-stop center must use a portion of the funds available for the program for the non-personnel costs of running the one-stop center. The U.S. Department of Labor will issue additional guidance on this topic in December. The State Workforce Development Board is tasked with determining the equitable methods of funding the costs of infrastructure at one-stop centers.

MOTION N/A

SYNOPSIS Once a One-Stop Operator is selected, the WIOA committee staff will work with all stakeholders and partners on establishing equitable infrastructure cost sharing formulas throughout the one-stop system, based on guidance issued by the U.S. Department of Labor.
